The Speed3x RS 500-14, Affectionately Known As The 'Little Brother', Strikes A Perfect Balance Between Elegance And Utility.

Powered By A 500 W Motor And Equipped With A 14-Inch Wheel, It Offers A Compact Yet Powerful Ride. This Model Is Adept At Handling Various Surfaces From Asphalt To Grass, And Its Smaller Wheel Size Enhances Its Portability. The combination of a high-capacity battery, hydraulic disc brakes, and cruise control makes it a versatile option for those who seek both style and performance in their mobility solutions.

THE WHEELCHAIR EVOLUTION: Speed3x Delivers the Future of Mobility.

Pioneering the path of progress, Speed3x seamlessly integrates cutting-edge technology to redefine wheelchair capabilities. Our dedication to innovation drives us to engineer solutions that enhance autonomy, ensuring every journey is taken with confidence. We don't just create products; we're crafting a new era of independence for wheelchair users worldwide. Embrace the evolution with Speed3x, where exceptional design meets the pinnacle of performance and mobility transcends limits.
